Hopscotch README.txt

Intern: Yunny Chung
Date: 2015-06-23

- **Final Product**
  - Link:https://youtu.be/gadLeWPLgoE (unlisted: only people who know the link can view it)
- **Newly added files**
  - magnetics_hopscotch.js
    - hopscotch for Home page and Tasks.do
  - viewcontact_hopscotch.js
    - hopscotch for Viewcontact page.

- **Changes to Original Codes**
  - hopscotch.css & hopscotch.js were added to gulpfile.js
  - magnetics_hopsctoch was added to
    - setupOnboarding.jsp (Home page)
    - tasks.jsp
      - multipage Hopscotch code was added
  - viewcontact_hopscotch.js was added to
    - viewcontact.jsp
  - added the hopsctoch.js files to setupOnboarding.jsp, tasks.jsp,viewcontact.jsp
  - <script src="js/libs/magnetics_hopscotch.js"></script>

- **Functionality**
  - When a user logs in, the wizard shows up.
  - Move to Tasks.do (when next button is clicked) and move back to Home.do (when prev button is clicked)
  - The wizard explains features of Home.do & Tasks.do
  - User cannot exit the wizard
  - The wizard explains features of ViewContact page
  - When a user signup for the first time, show the wizard.
   - how can I make sure that the wizard shows up only first time?

- **Problems needed to be fixed**
  - *The wizard shows up whenever a user logs in.
    - it only needs to show up only when a user signup for the first time
  - *Hopscotch 'Track Time' is not matched with the clock icon.
  - *Need more information about each feature that Hopscotch shows.
    - in particular, viewContact page.
  - Design of Hopscotch
   - change the hopscotch.css if necessary

* indicates the request of help

● **General Look**
  ○ I followed steps from 'onboard zip'
  ○ Homepage

  ○ Tasks page

○ Viewcontact page
